## Refining Moments

Our lives are full of refining moments, those experiences that shape us and mold us. Some are wonderful; some are not. Pam shares some of her own refining moments. Through a favorite pastime of shell collecting she illustrates that greatness results, if we will just allow. Pam will guide you in the discovery of your own refining moments, the growth that has resulted, and the celebration of that growth. Reach a greater understanding and acceptance that God allows us to have experiences for HIS greater purpose as he allows us to go from Broken to Beautiful.
